

## Let Lynda help you prepare for your introductory Java classes

At present, there are 16 available Java courses. Some of these are good preparation / review for IOOP and OOPDA. What is the best course for you? That depends on the topic and your level of understanding.

However, we have correlated the topics presented to the specific courses of IOOP and OOPDA.

Course	Level	Description	Recommended Lynda Chapters
Java Essential Training with	В	Explore Java SE, the language used to build mobile apps, desktop and	<b>IOOP</b> : Chapters 1-5; 7-10
David Gassner	_	web applications, and more.	OOPDA: Chapters 6, 11
Up and Running with Java	В	Get started programming in Java with this three-hour capsule course.	IOOP: Chapters 1-5
with Peggy Fisher		Learn how to create classes, control program logic and flow, and build	OOPDA: Chapters 6, 7
007		basic graphical user interfaces (GUIs).	
Java SE 8 New Features with	В	Take a tour of the new features in Java SE 8, including lambda	IOOP: Chapter 4
David Gassner		expressions, the Stream and DateTime APIs, and Nashorn.	OOPDA: Chapters 2-4
Up and Running with Java	В	An introduction to developing Java applications for various runtime	Interesting, but not integral to
Applications with Todd		environments.	IOOP or OOPDA
Perkins			
Java Essential Training (2011)	В	Explores Java SE, the language used to build mobile apps for Android	Not recommended; newer
with David Gassner		devices, enterprise server applications, and more.	version of course available
Java Essential Training for	1	Taking a college-level programming course? Maximize your learning	<b>IOOP</b> : Chapters 1-4, 6, 8
Students with Peggy Fisher		with these Java tutorials.	OOPDA: Chapters 5, 7
Code Clinic: Java with Patrick	1	Explore solutions to common Java programming challenges, and	For some more advanced
Royal		compare the results with other programming languages, in the Code	applications
		Clinic series.	
Java EE Essentials: Enterprise	1	Learn how to build your own simple JavaBeans and get programming	Special topic beyond
JavaBeans with Patrick Royal		tips for developing enterprise-level applications that are scalable,	IOOP/OOPDA
		cross-compatible, and less demanding of server resources.	
Java EE Essentials: Servlets	1	Get started creating basic servlets and Facelets and building simple	Special topic beyond
and JavaServer Faces with		data-management applications with Java EE.	IOOP/OOPDA
Patrick Royal			
Building Web Services with	1	Explore the concepts, syntax, commands, and tools that allow you to	Special topic beyond
Java EE with Patrick Royal		communicate and share data between applications with Java EE web	IOOP/OOPDA
		services.	
Foundations of	1	Identifies seven object-oriented design patterns (including the	Advanced topic in certain
Programming: Design		singleton, observer, decorator, and factory patterns) that make your	OOPDA sections
Patterns with Elisabeth		development process faster and easier.	
Robson			OOPDA: Chapters 1-8
XML Integration with Java	1	Learn how to create and parse XML with a variety of Java APIs and	Special topic beyond
with David Gassner		libraries, including DOM, SAX, JAXB, and more.	IOOP/OOPDA
Android SDK: Local Data	1	Create datacentric apps for Android devices, using SQLite, Java, and	Special topic beyond
Storage with David Gassner		the built-in android.database packages from the Android SDK.	IOOP/OOPDA
Java Databasa Integration	,	Describes how to road and manage data from valational databases	Special tonic housed
Java Database Integration	/	Describes how to read and manage data from relational databases	Special topic beyond
with JDBC with David		such as MySQL and SQL Server using the Java Database Connectivity	IOOP/OOPDA
Gassner	<b>—</b> ,	(JDBC) API in applications programmed with Java.	IOOD at OODDA.
Foundations of	'	Introduces object-oriented terms like abstraction and inheritance and	IOOP or OOPDA: Chapters 1-9
Programming: Object-		shows how to define requirements and use cases and create a conceptual model of your application.	Chapters 1-9
Oriented Design with Simon Allardice		Conceptual model of your application.	
Java Advanced Training with	Α	Expand your programming skills and get more out of Java, with	Special topic beyond
David Gassner	A	platform- and framework-neutral tutorials that are useful for building	IOOP/OOPDA
David Gassrier		1	IOUP/OUPDA
		web, mobile, and desktop applications.
