Rowan University College of Education

CAEP Annual Reporting Measure 3: Satisfaction of Employers

Context: Data reflects Employer Surveys of **2021** of Initial Licensure and Advanced Licensure, Certificate, and Endorsement candidates employed in classrooms, schools, and community agencies.

In Spring 2020 and Fall 2021, surveys were sent out via Qualtrics to 30 employers [school districts] of alumni who graduated within the last 5 years from Rowan's College of Education and stakeholders who are members of our various partnerships [EPAC, Camden Teacher Pipeline, Professional Development Schools Network, etc.]. Our goal was to garner the opinions of a representative sample of employers regarding the preparation our candidates received and their preparedness for engaging in the role of a practicing educational professional in an effort to continuously improve the relevancy and effectiveness of our programs. Each school district was asked for a representative of the district level administrative team [for advanced program graduates] and/or a member of school building level administration team [for ITP programs graduates] to complete and return the survey. We received 13 completed surveys [n] yielding a response rate of 43%
