

## **Certificate of Undergraduate Study in Environmental Humanities**

Description: A CUGS in EH introduces STEM students to the methods of the Humanities to interrogate the human contexts of environmental issues, which are crucial for effectively applying STEM findings and developments in complex cultural worlds. At the same time, this program offers students in the Humanities opportunities to explore how the critical thinking and communication skills they have developed might be applied to other fields and career paths.

The CUGS in Environmental Humanities will consist of **12 s.h.** as follows. You must take any four of the following courses:

- ENST 94301 – Environmental Ethics (3 s.h.)
- ENST 94302 – Technology & the Environment (3 s.h.)
- REL 10360 – Spirituality & Nature (3 s.h.)
- HIST 05333 – Environmental History (3 s.h.)
- ENGL 02123 – Experiencing Literature: Literature and the Environment (3 s.h.)
- GEOG 16308 – Sensing the Sustainable City (3 s.h.)
- WA 01325 – Scientific Writing and Rhetoric (3 s.h.)
